- 25X1 1. Up to early December 1949 the SNB was the executive organ of the NB (Narodni Bezpecnost). The SNB furnished units in uniform and was the executive agency in criminal matters, making arrests etc.
- 25X1 2. Six PS battalions of the SNB were employed along the western and southwestern border of Czechoslovakia. For data on the disposition of these battalions see para 5.
- 25X1 [REDACTED] The
- 25X1 battalions are of purely military character and are assigned to border control duty. Their employment was controlled by the Ministry of the Interior.
3. The personnel of the SNB border guard units has been exchanged since the late Summer of 1949. Personnel of some units was still being exchanged at the time of observation. The units received militarily trained personnel who had signed up for service with border guard units. Some of the new men had completed only a short-term service with the army and, as they were considered politically reliable, were promoted to the grade of sergeant immediately following their transfer to the SNB border guard units. The units, however, still included some old SNB men.
4. The personnel of the border guard battalions were armed with rifles and pistols. Some units were additionally equipped with machine guns and new submachine guns.
